Tina Harris-Cunningham	CSRM Support

Absent:

Marcie Stidham
Maurion Edwards
Mike MacEwen
Chandra Barnes
Deborah Edwards
Rosario Igharas
Joe Hubbell
Ray Usler
Steve Thomas

Discussion Topics

Survey results

Ed Miller reviewed the IT Security Conference Survey results with the Committee.   The survey results provided good feedback on conference length, suggested speakers and topics of interest for the conference.   Ed will send out the survey again to the ISO's and AITR's.

- The survey included the following:
    - One or Two Day Conference
    - Topics or areas of interest
    - Suggested Speakers
    - Other suggestions or comments.

SANS Training update:

The committee is considering ways to negotiate a discount price for SANS training.   It appears SANS is scaling back on providing discount prices for training.

Keynote Speakers:

Justin Somaini - Former CISO of Yahoo

Eric O'Neil – Former FBI agent who worked as an Investigative Specialist with the Special Surveillance Group (SSG) and played a major role in the arrest and life imprisonment conviction of FBI agent Robert Hanssen for spying on behalf of the Soviet Union and Russia.

*these are suggested speakers in addition to the speakers listed in the survey results and those previously identified by the committee.

<u>Next Steps</u>:
Discuss funding and event logistics with Mike Watson.
Committee needs to narrow down date, time and location of conference.
Come up with a prioritized list of keynote speakers and initiate invitation to speak process.
Begin negotiations with SANS for management and technical training sessions.
Once date and location are finalized, Committee needs to meet in person to decide on session speakers and topics.

Next Committee meeting is March 4th, 2013 at 1:00
